EXPERIENCE

Internship

December 2024 - Present

Web Development, SaralTech

- Working on a networking platform for early-stage startups to connect with Investors using React.js, JavaScript, TailwindCSS, Next.js, Cloudflare D1, Drizzle ORM
- Implemented OAuth 2.0 for secure authentication and centralized data storage with single sign-on (SSO).
- Transitioned backend architecture to a monolithic Next.js API + Edge environment model.
- Implemented CI/CD pipeline with GitHub Actions to Cloudflare Pages, improving release efficiency.
- Also working on Ed Tech platform for creating classroom and connect Tutors with Students

Study break to prepare for UPSC exam.

November 2018 - July 2024

Software Engineer

July 2017 - September 2018

System Software Team, Samsung R and D Institutes, Noida

- Built an internal website using React to optimize access to new features and documentation for 52 teams working on Samsung Smart TV, improving workflow efficiency by 25%.
- Managed all stages of frontend development and deployment from scratch.
- Created a responsive interface with CSS and JS, enhancing employee engagement.
- Reduced onboarding time for new team members by 20% for 500+ employees at SRI, Noida.
- Worked on ongoing Samsung Smart TV UI upgrades.

Internship

December 2016 - June 2017

System Software Team, Samsung R and D Institutes, Noida

- Developed a website to display Tizen native system cleaner results for Smart TVs using React, JS, HTML, CSS.
- Stored and displayed results related to cache, memory, temperature, and app data for optimization on website.
- Resolved software image bugs and gained expertise in Samsung Smart TV components.

TECHNICAL SKILLS AND INTERESTS

Language: JavaScript

Frameworks/Libraries: React.js, Express.js, Tailwind CSS, Redux, Node.js, Context API

Database: MongoDB, Cloudflare D1

Development: HTML, CSS, Mongoose, Drizzle ORM, Razorpay Payment

Others: Git, Github, Github Pages, Postman, MongoDBCompass, Vercel, Render, VS Code, MS Office

EDUCATION

Bachelor of Engineering in Computer Engineering

2012-16

Netaji Subash Institute of Technology, NSIT, Delhi

CGPA: 7.1

Class XII and X CBSE

2008-11

JNV Mungeshpur, Delhi

PERSONAL PROJECTS

StudySphere EdTech Platform

- Multi-role (admin, instructor, student), Responsive UI (tab, slider, animation), Email OTP signup, Profile edit (pic, about, cron deletion), Admin adds Category, Instructor creates/edits/deletes course (subsection, video, publish), Earnings charts, Student multi-course Cart, Buy Now, Razorpay payments, Video lectures (accordion, mark complete, navigate), Progress tracking, Star rating, Reviews, Frequently bought course, Contact form.
- Tech used - MERN with Tailwind CSS, Redux and Razorpay payment integration

Clinic Appointment

- Features - Book appointment form with Google Sheets integration for backend, Blog categories and pages, Testimonial slides, Mobile-responsive design.
- Tech used - ReactJS, JavaScript, Tailwind CSS, and Router
